**Message from the last owners:**

"After more than 17.000 kilometers, we came back safely and without any mechanical trouble. The fact that you can be inside the van standing up is a great advantage. The cooking material is simple but you can manage to prepare all kind of meal easily.

There is a lot of storage for food, shopping or your personal stuff. With a 400 kilometers autonomy, you can travel for 3-4 days before going back to the market. We really loved our experience with this van and we are pretty sure it will be the same for you".

It also included:

**Kitchen:**

- Plates and bowls
- Strainer
- Cutlery
- Kitchen grater
- Stainless steel cups
- Cutting board
- Camping stove
- Chilean toaster
