This Volkswagen Vanagon Westfalia T3 from 1982 has an original Westfalia interior with everything you need to travel off road. Includes a retractable sofa/bed for two, a big closet for storage, a two burner stoves, build in propane tank, a sink and a tab with a 50 l build in water tank with electric pump, compressor fridge (22l) and two tables inside. In the roof it has a waterproof rooftop box, a solar system (100W solar panel and GoalZero Yeti 200) and an ARB Touring awning.

The VW Vanagon or Westy, as it is referred to often, has earned his reputation as the ultimate campervan over the last few decades. Even though it seems pretty small from the outside, the inside is actually very spacious, making it very nice to drive around narrow streets in city centers while providing the comfort of a tiny home when you are out in the wild.

**Important: Canadian Plates (British Columbia)**

It also includes:

- pots, pans, omnia oven and other kitchenware (everything what you need for cooking)
- camping chairs, outdoor table, yogamat
- tools and spare parts, shovel, axe
- portable shower
- mosquito net for the back door and sidedoor
- LED lights
- custom-made surf racks
- high roof tent – great for tall people

Do you imagine yourself travelling the continent in this “house on wheels”?

Please do not hesitate to get in touch with us.  
If you have any questions, we'd love to chat over WhatsApp or video call and give you a long-distance tour of the van.
